

# ACUCRAFT GAS FIREPLACES

ALWAYS ONE-OF-A-KIND

# Why Acucraft

At Acucraft, we know you want a fireplace that stands out. In order to do that you need a one of a kind fireplace. The problem is all other fireplace manufacturers make the same boring, mass produced product, which makes you feel stuck and frustrated. We know what it feels like to want something better and different, which is why we guide you through the entire process. So stop being frustrated with limited, boring, mass-produced products, and instead have a one of a kind fireplace that you will love forever!

# Four Seasons Resort - Dallas, TX

Everyone knows only the finest products make their way into Four Seasons Resorts. Known for their luxury amenities, this sunny Dallas, TX location wanted to find a fireplace that could seamlessly fit within their new rugged

saloon where guests can enjoy innovative craft cocktails, local beer and the sounds of Janis Joplin & Stevie Ray Vaughn. This fireplace was custom designed for this space and includes a cor-ten finish and mammoth logset.

# Hotel Palomar - Beverly Hills, CA

We Find Yes. When RD Olson Construction came to Acucraft looking for a show-stopping fireplace for their upcoming Emmy after-party we were happy to oblige. This custom concentric circular gas

fireplace included our Patent-Pending Glass Cooling System with removable glass panes. The fireplace made the perfect backdrop for those afterparty snapshots!

# A Trio of Gas Fireplaces- Los Angeles, CA

This beautiful home located in Hollywood Hills features three Acucraft custom fireplaces: a linear open outdoor fireplace above a secluded pool and living wall; and two see-through gas fireplaces in the master bedroom and living room.

Our linear gas fireplaces were the perfect fit for this ultra-modern hideaway, exceeding our customer's expectations and meeting strict LARR requirements. This home is now listed by James Harris & David Parnes of Million Dollar Listing, Los Angeles!

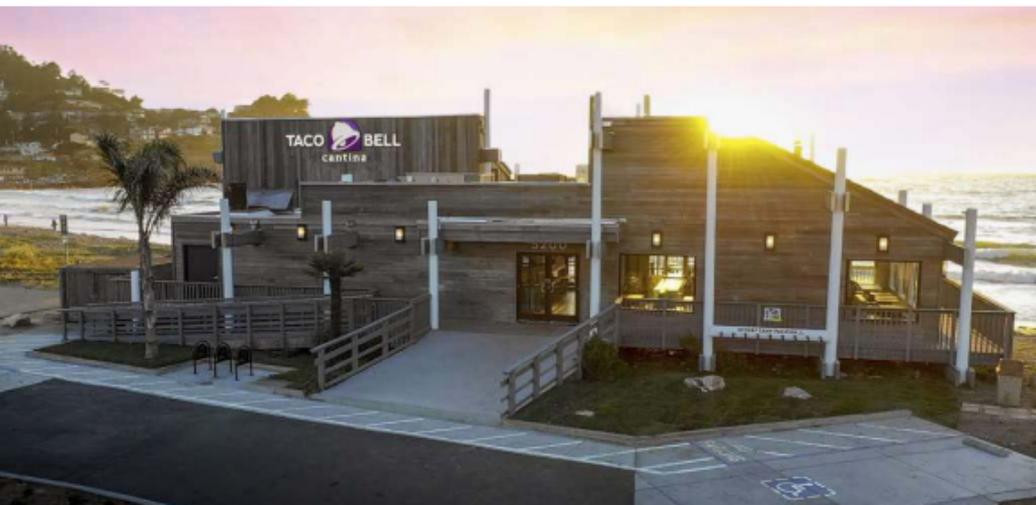

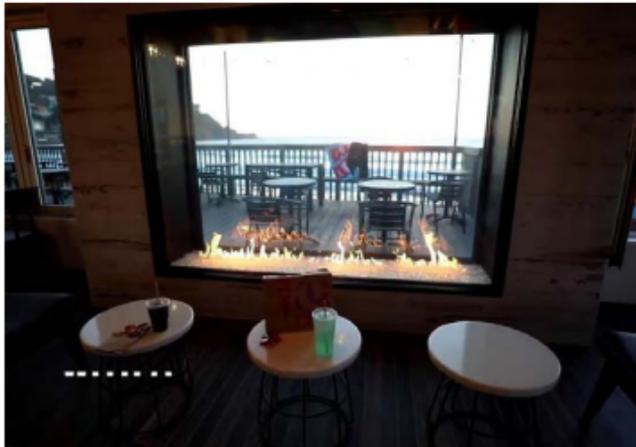

# Taco Bell Cantina - Pacifica, CA

The World's Most Beautiful Taco Bell! Located just off the Pacific Coast Highway this Taco Bell has become somewhat of a landmark. When Golden Gate Bell LLC decided to upgrade one of their most popular locations it included fitting an Acucraft mammoth see through gas fireplace into a pre-existing space. The key to this remodel was to maintain the large ocean views while providing customers with the space to enjoy conversations over tacos and Twisted Freezes!

The custom fireplace we designed with the team at CM Architecture & First Street Development was the perfect fit for this space and became another window for customers to enjoy endless ocean views, tree-lined hills, and the occasional whale!
